Re: EyeOnWater Program

Dear Consumer:

As part of our continued efforts to improve services to our consumers, the District has recently upgraded your water meter. With this upgrade, you now have direct and secure access to your water usage data via a mobile and desktop application called EyeOnWater. The District's EyeOnWater suite of available tools provides a platform for residents to review and analyze their usage patterns with up-to-the-hour accuracy. The application also offers easy to understand graphs and the ability to identify and monitor potential leaks and set notification alerts.

To access the website and set up your personal account, just follow these few easy steps:

Visit the District's Website <https://www.jerichowater.org/> and click on EyeOnWater and the Register Now button. This will direct you to the EyeOnWater Signup page. You will need the following information:

1. Zip Code
2. Account Number
3. Email Address

We invite you to take advantage of this opportunity to sign up for EyeOnWater and to send us your feedback.

Sincerely,
Board of Commissioners

A handwritten signature in blue ink, appearing to be "P. Logan", written over a light blue circular scribble.
