

# EyeOnWater Set Your Leak Alert!

## (Desktop Instructions)

1. Click the "Set Leak Alert" Button to access the Alert Configuration Wizard.
2. Set the expected flow type of your meter by choosing "Intermittent Flow".
3. **We recommend setting a leak alert for 8 gallons per hour for 24 consecutive hours. This will alert you when water has been in continuous use for over 24 hours at this rate or greater. ---> Next.**
4. Choose Alert Options by either email and/or text
  - a. To add an email alert, enter your email and click plus sign.
  - b. To add a text alert, click on the "i" dot for directions specific to your cellular carrier to add the alert and click the plus sign. ---> Next.
5. Review Summary ---> Save.
